Coordinated by: Ghana Water Ltd, IHE Delft, VEI, WaterWorX

Venue: United Nations Bonn Campus

Format: In person, English

Moderated by:

Max Capacity: 32

Training Workshop Summary

Move beyond theory and step into the shoes of a utility manager in this interactive training session. Using our proven Utility Management Simulation Game, you will make operational and financial decisions in a risk-free environment, sharpening your strategic thinking and business acumen.

In this session you will:

- Experience a proven tool developed by IHE Delft and successfully scaled by Ghana Water Ltd (GWL) through a "Training of Trainers" model.
- Learn from a South-led success story that has empowered GWL to become a regional training hub for partners and events in Sierra Leone, Bangladesh, Tanzania, and Uganda.
- Get a sneak peek at the new Climate-Resilient Utility Management module and have the opportunity to provide feedback to help shape its final form.
